

PropertyWorks Standard Operating Procedure

Website Administration, Content Management & Security Guide

Welcome to your PropertyWorks Website Management Guide!
This document provides clear, step-by-step instructions for managing your website content, update requests, and security settings. It covers both instant Admin Panel updates and code-level configuration for complete control.

1. Website Administration Overview

The PropertyWorks platform features a live Express & React backend architecture. Updates made inside the Admin Panel take effect immediately across all website sections without needing server restarts.

Portal	URL Location	Default Credentials
Live Admin Panel	https://www.propertyworks.in/admin	Password: admin123
Local Dev Admin	http://localhost:5173/admin	Password: admin123

2. Changing the Admin Password (via Code Base)

backend/database/admin.json

```
{ "passwordHash": "YourNewSecurePassword123" }
```

3. SOP: Website Content & Image Management (via Admin Panel)

A. Real Estate Projects Management

B. Knowledge Center & Articles

C. Global Site Settings & Contact Details

D. Page Sections & Hero Banner Customization

[gold]Word[/gold]

4. Leads Management & Data Exports

5. Google Business Profile Quick Reference

Field Name	Official Business Details
